

You breath oxygen through
that masks Ignorant-man,
if not you would suffocate.
So what is in that mask
that filters out the virus
when the virus clings to the
air molecules?

You have know answer
again; all they have is
misdirection and confusion.
Are you sure they are

people looking out for our
health or they are out for
their wealth by telling you
a lie, and you complying.

You wear a mask to protect yourself from particles in the air like dust, pollution. A doctor wears a mask to protect the patient from

the doctor so nothing falls into the patient as he operates.

Wearing a mask is a LIE for a virus. You have been hoodwinked, all you are doing is rebreathing your own CO_2 , poisoning your own self slowly making yourself sick.
